

Well Drilling or Repair

Highland Town Garage

Bids are requested to drill a new well or upgrade the existing well at the Town of Highland Municipal Garage located at 8580 County Road S. The existing old well does not supply enough volume to meet the needs of the Town Garage. Repair or drilling is requested as soon as possible. Bids must be sent to the Town Clerk, PO Box 22, Lake Nebagamon, WI 54849. Bids will be opened at 7:00PM at the Highland Town Hall on June 12, 2018 when the Town Board plans to select a contractor. The Town of Highland reserves the right to reject bids that do not conform to the job outlined below or if the bids are beyond budgeted amount.

Interested contractors are invited to inspect the jobsite and ask questions they may have to help in completing a bid. To schedule an inspection please contact the Town Facilities Supervisor Sam Jones (218)341-8229. Contractor selection will be based on fixed price and earliest guaranteed installation date.

Bids must include:

- A description of the job either to replace or repair the existing well. The goal is to attain at least 4 Gal./min flow.
- Replace the pump and connect to existing water system.
- Install 4 inch diameter steel casing if needed.
- Seal abandoned old well according to law (if new well is necessary).
- All materials cost and labor for Installation and site clean-up
- Contractor License Number and Certificate of Insurance
- Total cost and not to exceed date of installation
